

DESIGN A POSTER

Use the space below to create a poster to help people understand the plastic problem and how they can help save our planet. Make sure it's bright and colourful to get everyone's attention.

REDUCE, REUSE, RECYCLE

There are three ways you can help save our planet from plastic: 1) **REDUCE** the amount of plastic you use, 2) **REUSE** plastic items and 3) **RECYCLE** plastic once you've used it lots of times. Can you sort each of the plastic items below into the relevant box or boxes?
What other plastic items could go into those boxes?

REDUCE

Lots of the items we use regularly are made of plastic. We need companies to think about whether items have to be made of plastic or if a different material will work just as well.

REUSE

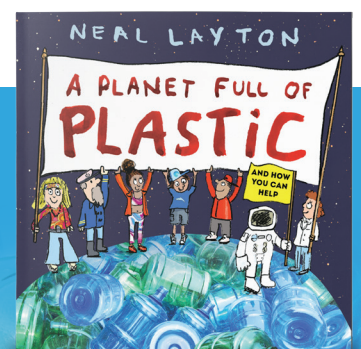

Around half of the plastic made each year is only used once before it is thrown away. We need to change this, and use things multiple times. We also need to give plastic things we no longer use to other people to use.

RECYCLE

Once plastic stuff has been reused lots of times, it should be recycled and turned into new plastic items, rather than being thrown away.

**CARRIER BAG OLD TOYS SINGLE USE WATER BOTTLE
RUBBISH BIN SHAMPOO BOTTLE CUTLERY BUBBLEWRAP
SLIDE PLASTIC SHOES BUTTON HAIR BOBBLE NYLON FLAG
DRINKING STRAW CLING FILM**

GET RECYCLING!

Use the grid below to track what you recycle each week. For each item you recycle, colour in a box.
Why not create a sheet each week and see if your recycling improves over time?

RECYCLED ITEMS	1	2	3	4	5	6	7	8	9	10
PAPER										
METAL AND TIN										
PLASTIC										
CARD AND CARBOARD
